EDUCATION

B.Tech in Computer Engineering

Silicon University, Bhubaneswar, Odisha

2023 – Present

CGPA: 7.93/10

12th CBSE

K.C. Public School, Berhampur, Odisha

2021 – 2023

85.83%

10th CBSE

K.C. Public School, Berhampur, Odisha

2020 – 2021

93.8%

SKILLS

Languages	Python, JavaScript, TypeScript, SQL
Frontend	React.js, HTML, CSS, Axios
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB Atlas, MySQL, MS Excel
Data Science	Pandas, NumPy, Scikit-learn, Feature Engineering, Model Evaluation
Visualization & Tools	Power BI, DAX Git, GitHub, VS Code, Jupyter Notebook

INTERNSHIP

Full Stack Developer — NPTEL Winter Internship 2025 (MERN)

Jan 2026 – Mar 2026

Indian Institute of Technology Ropar (Remote)

- Built Vi-Notes, a secure full-stack writing platform (React/TypeScript, Node.js, Express, MongoDB) with JWT-based authentication and bcrypt password hashing for persistent user sessions
- Developed real-time editor with word/character tracking and paste detection; designed RESTful APIs with Axios for seamless client-server communication and cloud (MongoDB Atlas) integration

PROJECTS

Emotion-Aware Decision Support System

GitHub

- Multi-task ML pipeline (TF-IDF + Gradient Boosting) for 6-class emotional prediction; CV Accuracy 0.463 with uncertainty-aware probabilistic scoring and confidence flagging
- Hybrid decision engine (ML + rule-based); ablation study showed +2.8% gain from multimodal fusion; key drivers: `stress_level` and semantic signals

Mental Health Risk & Support Analyzer

GitHub

- RandomForestClassifier (Python, Scikit-learn): Accuracy 0.746, F1 0.739, ROC-AUC 0.823; improved via cross-validation, hyperparameter tuning, and class balance handling
- Applied data preprocessing, feature engineering, scaling to improve model robustness and collaborated on data analysis and dashboard development to deliver insights

Amazon Global Sales Dashboard — Power BI

- Built a 4-year interactive dashboard (2012–2015) with 10+ visuals analyzing revenue trends, regional performance, and profitability metrics
- Implemented advanced DAX calculations for YoY growth, sales projections, and segment-wise KPIs, enabling stakeholder self-service analytics via slicers, drill-downs, and maps

LC50 Fish Toxicity Prediction

GitHub

- Compared 5 regression models via GridSearchCV; Polynomial Regression: $R^2 = 0.91$, MAE = 0.42 — best performer after KNN Imputation and DBSCAN outlier removal
- Applied KNN Imputation, DBSCAN outlier detection, and feature scaling (StandardScaler) to improve data quality and model performance

CERTIFICATIONS

- Power BI** — Simplilearn SkillUp (Jun 2025): DAX, data modelling, and dashboard visualization
- Spring Boot (Java) + Angular Full Stack Industrial Training** — Silicon University (Jun–Jul 2025)

ACHIEVEMENTS

- Scored **95% (Top 5%)** in NPTEL “The Joy of Computing using Python” among 20,403 candidates (Jul–Oct 2025)
- Ranked **7th Globally** in Code Olympics Season 1 (2021) organized by CodeYoung
